

Jarus Technologies Announces the Addition of Nathanael Waite as VP of Insurance Solutions

Subject Matter Expert and Product Innovator with over 20 years of Insurance Industry Experience

Pittsburgh, PA – January 3rd, 2024 –Jarus Technologies, a leading provider of modular, flexible, and scalable technology solutions for insurers, is happy to announce the addition of Nathanael Waite as Vice President of Insurance Solutions.

Nathanael brings two decades of hands-on experience with Property and Casualty insurers and the Acord organization, to his new position leading Jarus' Insurance Solutions division. His past roles include serving as the Director of Architecture and Cyber Security, and Systems Architect for a super-regional Pennsylvania-based P&C Insurer. This exposure has given him a deep understanding of Jarus' flexible solution architecture, having implemented its modules firsthand.

"We're excited to add Nathanael to our senior leadership team. After working with Nathanael as a customer and partner it was clear he is a proven industry expert, leader, and mentor," said Sundar Vallinayagam, Chief Executive Officer of Jarus Technologies. "His engagement with customers, prospects, and real-world experience in purchasing and implementing new technologies will expand our product roadmap and the value we deliver to insurers tenfold."

In his new role, Nathanael will work directly with customers and prospective insurers from a Solution Architect and Product Lead perspective to assist insurers with their digital transformation and core system modernization strategies. This will include direct oversight of new customer implementations where Nathanael can provide an elevated level of expertise given his experience as a former customer.

"Joining Jarus' leadership team presents a thrilling opportunity to make a real difference for insurers," Nathanael stated. "Jarus' dedication to customer success and collaborative spirit truly resonated with me. I'm excited to implement solutions that enable rapid product introductions, reduced IT dependence, and comprehensive digital transformations. Together, we will pave the way for Jarus and its clients' growth and success."

Jarus Technologies

877 WE-JARUS | sales@jarustech.com

Jarus Technologies, based in Pittsburgh, Pennsylvania, was established in 2005 to fast-track digital transformation strategies for P&C insurers. The company offers a versatile no code/low code Policy Administration System Solutions with modules like Underwriter Workbench, Rules Engine, Rating Engine, Self-Service Portals, Mobile Applications, BI/Reporting, Micro Services/Core Framework, and Workflow Engine. The innovative Jarus Product Configurator, paired with these modules, allows users to swiftly adapt to changes without altering the core code, thus reducing implementation times. Jarus also stands out as the only vendor offering a source-code option, giving insurers complete ownership of the solution.
