

FOR IMMEDIATE RELEASE

PRIME HOLDINGS INSURANCE SERVICES, INC. SELECTS JARUS MOBILE APP SOLUTION

Prime Holdings Insurance Services, Inc., a holding company for a suite of excess and surplus lines insurance service companies, is leveraging Jarus' mobile solutions for its agents and policyholders.

Chicago, IL and Salt Lake City, UT – May 20, 2015

Prime Holdings Insurance Services, Inc. is leveraging the Jarus Mobile App Solutions to provide anywhere, anytime communication flexibility between its policyholders and agents.

The Jarus Mobile Solution is a ready-to-deploy customer and agent self-service solution for Insurers. The solution includes a set of highly customizable, native applications for iPhone, Android and Windows Phones, with a rich set of features such as Policy Inquiry, Online Payment, Accident Help, First Notice of Loss, and Policy Documents.

Prime Holdings Insurance Services, Inc. is customizing and branding the mobile solution for three of its subsidiary companies, Prime Insurance Company (Prime), Evolution Insurance Brokers, LC (EIB) and Claims Direct Access (CDA). "Our initial rollout will concentrate on the FNOL functionality. Leveraging Jarus's Mobile Solution architecture, we will be able to rapidly release additional functionality with minimal programming effort," said JD Brown, CIO of Prime Holdings Insurance Services. "Jarus's flexible back-end integration methodology complimented our existing Web Services initiative for our core policy and claims systems, allowing for a quick and easy deployment."

These enterprise class Jarus Mobile solutions are purpose-built to suit the specific needs of the insurance industry. By using the solution from Jarus, insurers need not have to deal with the inherent complexity associated with maintenance and support of a multitude of mobile operating system (OS) platforms and devices. "Our apps, along with Jarus Mobile API, provide the perfect platform that leverages our skill set on mobile technologies," said Sundar Vallinayagam, CEO of Jarus technologies.

Designed by Jarus for the Insurance industry, Jarus Mobile API is a set of standards based, language neutral RESTful services. These RESTful services facilitate multiple devices, using different languages and technologies to communicate with the carrier backend in a secure manner.

About Prime Holdings Insurance Services, Inc.

Prime Holdings Insurance Services, Inc. was founded in 1992 as a holding company for a suite of excess and surplus lines insurance service companies. Prime Holdings offers underwriting, risk management, claims, brokerage and financing services nationwide through its subsidiary companies; Prime Insurance Company, Evolution Insurance Brokers, LC and Claims Direct Access.

Prime Insurance Company, with offices in Chicago Illinois and Salt Lake City Utah, is a surplus lines insurance company that provides a stable market for hard-to-place risks including commercial property, inland marine, healthcare services, commercial liability, garage services, professional liability and many more. The Prime companies have formed a number of strategic relationships with some of the world's premier insurance organizations and currently holds an A.M. Best rating of "A-".

Evolution Insurance Brokers, LC (EIB) is Prime's full service brokerage specializing in excess and surplus lines insurance nationwide. Through EIB, independent producers find solutions for specialty liability, professional, property and casualty, and hard-to-place risks.

Claims Direct Access (CDA) handles claims for Prime Insurance Company and is structured to provide effective and efficient claims handling as a third party administrator.
