Jarus Technologies Announces Strategic Partnership with Winlen Technologies as a Certified Implementation Partner

[Pittsburgh, PA] — [July 11th, 2025] — Jarus Technologies (Jarus), a leading provider of Policy Administration Solutions for Property & Casualty insurers, is proud to announce a strategic partnership with Winlen Technologies (Winlen), officially designating them as a Certified Implementation Partner.

This certification reinforces Winlen's proven expertise in deploying, configuring, and optimizing Jarus' platform to drive value for insurers who wish to take back control of their technology transformation strategy. With a strong track record of implementing Policy Administration, Rating, and Digital Solutions, this partnership is poised to accelerate adoption and ensure successful project delivery for organizations world-wide.

"Winlen has consistently demonstrated a deep understanding of our solutions and a commitment to delivering exceptional client outcomes," said Sundar Vallinayagam, CEO at Jarus. "Formalizing our relationship ensures clients receive the highest level of implementation service, guided by best practices and aligned with our vision for innovation and efficiency."

As a Certified Implementation Partner, Winlen has completed exclusive training, developed support resources, and has early access to product roadmaps, empowering their team to deliver tailored implementations with reduced risk and faster time-to-value.

"We are excited to be named a Certified Implementation Partner of for Jarus". "Jarus is setting a new benchmark for insurance core systems with its open, modular design. Our partnership brings Insurers a faster, smarter path to digital transformation." said Anil Deshpandey, CEO at Winlen.

This collaboration underscores Jarus' ongoing commitment to building a robust partner ecosystem to scale delivery capacity and client success globally.

About Jarus Technologies

Jarus Technologies was founded in 2005 and specializes in core system transformation solutions for the P&C Insurance Industry. The Jarus Policy Administration System leverages a modular architecture that allows insurers to implement purpose-built components to meet their specific business challenges. Jarus is the only vendor that promotes true customer collaboration by offering access to the source code, which allows insurers to truly control their technology transformation strategy.
